

# COSGROVE AIRCRAFT SERVICE, INC.

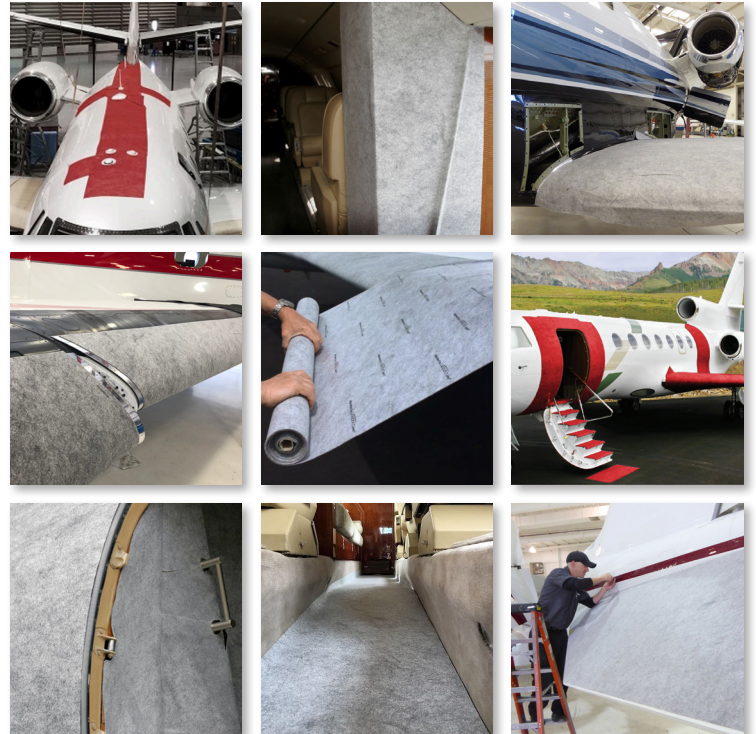

## ALLProtect

We are pleased to be able to offer you the full line of **ALLProtect™** products available by SurfaceLiner®.

ALLProtect is a padded, nonslip protective covering for all types of aircraft to be used during maintenance completion and detailing work on interiors, air stairs, leading edge, wings, and windows. It protects against mechanical damage and has an adhesive backing that creates a safe nonslip work environment.

The 20" width roll is perfect to take inside the aircraft for interiors protection (veneer, carpet, credenzas), and the 40" width roll is better for wings, leading edges, and the top of the aircraft for avionics work. The material is easy to cut to fit any size or shape, and the perforated rolls were introduced so that no razor blades, knives, or scissors are needed. RED rolls were designed to give an instant visual cue and alert to the most sensitive surfaces of the aircraft.

- Protect and cover your aircraft and work surfaces
- Padded, durable, reusable
- Solvent proof
- No residue
- Exact fit
- One man job to apply
- FOD management
- Nonslip backing
- Swiss precision

### Currently stocking:

**Gray:** 40" × 82' rolls, 40" × 82' perforated rolls, and 20" × 82' rolls (sold as pack—2 rolls per pack)

**RED:** 40" × 82' rolls
