FAA TSO C70a 4 Person Life Rafts

Type II, Non-Transport Category, Single Tube Design for Small Corporate and Commercial Aviation

AVI Survival Products 4 Person Life Raft conforms to the latest FAA TSO C70a requirement. The life raft has a single tube inflatable, with an internal bulkhead design, creating two separate chambers. Classified as a Type II Non-Transport category life raft recommended for Corporate and General Aviation.

The 4 Person life raft series is constructed with the latest Urethane coated Nylon Fabric using thermo bonding technology. This process heat seals the fabric, melting the seams together to ensure longevity of the raft. Each raft includes a stabilizing Water Ballast system, a hand pump, bailing bucket, a sea anchor, secured life-lines on the exterior perimeter of the raft for use of survivors in the water, and an inflation/retaining line that is attached to a high strength patch on the raft to prevent drifting and a water activated locator light. Aluminum cylinders and valves are added to reduce corrosion while packed and in use. The Soft-Pack Valise is made of heavy-duty polyester fabric with secured Velcro closures for a tightly packed raft.

These rafts are engineered to reduce overall weight and deliver a compact design for easy transport and stowage for any aircraft compartment. AVI life rafts come with a 3-year service interval and a 3-year warranty on parts and labor, built to last a lifetime with proper care.

- CO₂ Inflation System with Aluminum Cylinder
- Water Ballast System and Sea Anchors
- Boarding Handles and Life Lines
- Water Activated Locator Light
- Bailing Bucket and Hand Pump
- Heavy Duty Polyester Valise
- Canopy and Canopy Mast

PART NUMBER	DESCRIPTION	PACK SIZE*	WEIGHT
RAF1104-301	4 Person TSO with FAR 91 Kit	8" x 14" x 17"	23 lbs
RAF1104-305	4 Person TSO with FAR 135 Kit	8" x 14" x 17"	29 lbs
RAF1104-307	4 Person TSO with FAR 91 Kit and Endpack	5" x 14" x 21"	23 lbs
RAF1104-309	4 Person TSO with FAR 135 Kit and Endpack	5" x 14" x 21"	29 lbs
500-12y (T1)	406 MHz ELT (can be added to any raft)	2" x 4" x 6"	1.5 lbs

*Required raft compartment size = add 1"-2" to all around life raft dimensions. Raft required weight +/- 2lbs.

FAA TSO C70a 6 Person Life Raft

Type I, Transport Category, Double Tube Design for On Demand and Corporate Aviation

Survival Products 6 Person Life Raft conforms to the latest FAA TSO C70a requirement. This life raft has a double tube inflatable design, classified as a Type I Transport Category life raft. All Survival Product life rafts are constructed with the latest Urethane coated Nylon Fabric, that are attached using hot air welding technology. Welding the fabric together tightly seals the seams together.

Each raft includes a stabilizing Water Ballast system, a hand pump, bailing bucket, a sea anchor, secured life-lines on the exterior perimeter of the raft for use of survivors in the water, and an inflation/retaining line that is attached to a high strength patch on the raft to prevent drifting and a water activated locator light.
