

COSGROVE AIRCRAFT SERVICE, INC.

Since 1985, **Cosgrove Aircraft Service** has operated an FAA authorized wheel and brake repair station (FE1R136K/EASA.145.6087). Our Landing Gear Systems division's state-of-the-art facility is based at the Westchester County Airport in White Plains, NY.

Our expert technicians overhaul wheels and brakes for a wide range of manufacturers, including BF Goodrich, Dunlop, Meggitt Aircraft Braking Systems, Messier-Bugatti-Dowty (Safran), and Parker, using only OEM parts.

We also have an extensive inventory of landing gear products and we are an authorized distributor for Goodyear, Michelin, and Meggitt Aircraft Braking Systems.

We offer outright and exchange component sales in both factory new and overhauled conditions.

Authorized distributors for:
